

Front-End Developer

Are you ready to become a part of the world's loudest start-up and join our skyrocketing journey? Are you fueled by challenges and reaching ambitious goals in a fast-growing company expanding internationally? Would you like to use your design and front-end skills to influence how our customers experience the SOUNDBOKS brand?

Then you might be the Front-End Developer we are looking for to push our website and marketing campaigns to the next level.

JOB TITLE	FRONT-END DEVELOPER
REPORTING TO	E-COMMERCE DIRECTOR
HOURS	FULL-TIME
LOCATION	COPENHAGEN
START DATE	DECEMBER 2017

Become a Part of the SOUNDBOKS Journey

As a Front-End Developer at SOUNDBOKS, you will be part of one of the fastest growing hardware start-ups developing, manufacturing and selling the world's loudest battery-powered Bluetooth speaker, primarily targeting European and American markets. You will work closely with the e-commerce team who is managing and developing the web shop, as well as executing new marketing campaigns with the goal of maximizing sales.

Furthermore, you will work with our Community Team to improve information discovery, user experience and the customer journey as a whole.

Your key responsibilities include:

- Design ownership of our website which includes designing, expanding and optimizing our website to improve the customer journey.
- Execute marketing campaigns.
- Independently validating the usability and effectiveness of developed solutions.

Extensive knowledge of design and a desire to never stop learning

To fulfil these requirements, you should have an extensive knowledge of design and front-end development. It's a benefit but not a necessity to have experience with the WordPress platform. Furthermore, to successfully perform the job, the following skills and experience are required.

- Ability to design responsive web pages considering modern web design trends (using Adobe CC/Sketch)
- Strong skills in HTML, CSS and Javascript

- Version control using Git
- Experience with Node.js build systems like Gulp or Grunt
- A curious mind and being open to learning

Additionally, it would be an advantage if you:

- Have a BSc or MSc degree in computer science (or similar)
- Have experience using modern Javascript libraries
- Are familiar with PHP & WooCommerce
- Have knowledge of common web analytics tools like Google Analytics
- Are interested in marketing

As a person, it will be important if you consider yourself as a good planner, are inspired by a lively working environment and a good communicator, as you will be co-operating with several other teams within SOUNDBOKS.

Want to join the team?

Send your application and CV to jobs@soundboks.com as soon as possible as we are screening candidates on a continuous basis. If you have a portfolio or similar to show us as a reference we would love to see it.

Deadline for the application is November 10th, 2017.

If you have any questions about the position, please contact Stine Friis Mønster on +45 5189 1494 or send an email to stine@soundboks.com

We look very much forward to hearing from you!

About us

In the early days of SOUNDBOKS, three high school friends built DIY-speakers for music festivals. After graduation, they decided to officially found SOUNDBOKS with the vision of bringing people together through shared experiences. In early of 2016, SOUNDBOKS participated in Y-Combinator in Silicon Valley for three months, resulting in one of the biggest seed round valuations for any Danish start-up. Since then, SOUNDBOKS has grown exponentially with core markets in Denmark, Germany and North America. We are currently more than 30 employees across our three offices in Copenhagen - DK (HQ), Los Angeles - CA, USA and Hangzhou, China. We have a strong brand profile making SOUNDBOKS not just a speaker, but a community. Join us on our exciting journey!
